| ACQUIRED DATE OF NFO. 25X1 SUPPLEMENT TO REPORT NO. THIS IS UNEVALUATED INFORMATION 25X1 1. The following telecommunications facilities are being constructed by the Sachnonwerk Radeborg, by order of the Russian unit 25X1 25X1 a. An RDS-2 truck which is used only for carrier frequency communications (Tragerfrequenc-Verbindungen) is at procent at the Russian Intolligence Durrects in Dateborg, are Ithilmanast. 115. From here to the wood between Bateleberg and Hichendorf, a 5 to 8 kmlong copper cable has been provintionally constructed for an intolligence unit. b. In this wood, on a small hill about 3 km. from Teufelscee, in the direction of Bebeloberg, are situated one 103-2 truck, two 103-1 trucks, one 103-4 truck and two acrial truliers with 30-m, antenna masks. From this apparatus there are three radio decirator directional lines (Date of the second and | SUBJECT | | s Erected | | NO. OF PAGE | S 1 | |
| 25X1 The following telecommunications facilities are being constructed by the Sachsonverk Badeborg, by order of the Bussian unit a. An IBS-2 truck which is used only for carrier frequency consumications (Trigerfrequenz-Verbindungen) is at procent at the Rundan Intelligence Barrucks in Babelsborg, Ernst Thillrannatt. 115. From hore to the wood between Babelsborg and Kidehandorf, a 5 to 8 kmlong copper cable has been provisionally constructed for an intelligence unit. b. In this wood, on a small hill about 3 km. from Toufelsees, in the direction of Babelsborg, are statusted one PBS-2 truck, two IBS-1 trucking, one BDS-4 truck and two certain trailers with 30-m, antenna nests. From this apparatus there are three radio declineder directional lines (Doziretor-Richtverbindungen) to the East. Each line has a relay station about 45 km. any and about 20 km. beyond that in the corresponding terminal station. 2. Nore of those communications facilities are to be constructed. | THIS IS UNEVALUATED INFORMATION The following telecommunications facilities are being constructed by the Sachnenuerk Radeborg, by order of the Russian unit a. An RDS-2 truck which is used only for carrier frequency communications (Indigentrequence-Verbindingen) is at present at the Russian Intelligence Barracks in Rabelsborg, Ernst Thillrammetr. 115. From here to the wood between Babelsborg and Hischendorf, a 5 to 8 kmlong copper cable has been provisionally constructed for an intelligence unit. b. In this wood, on a small hill about 3 km. from Teufelseee, in the direction of Babelsborg, are situated one FDS-2 truck, two RDS-1 trucks, one RDS-4 truck and two acrial truiters with 30-m. antenna nacts. From this apparatus there are three radio decinater directional lines (Dozireter-Richtwerbindungon) to the East. Each line has a relay station about 45 km. away and about 20 km. beyond that is the corresponding terminal station. 2. More of these communications facilities are to be constructed.
